

List of Academic Publications

Nyborg, H. (1971a) Tactile stimulation and perception of the vertical. I. Effects of diffuse vs. specific tactile stimulation. *Scandinavian Journal of Psychology*, 12, 1-3

Nyborg, H. (1971b) Tactile stimulation and perception of the vertical. II. Effects of field dependence, arousal, and cue function. *Scandinavian Journal of Psychology*, 12, 135-143.

Nyborg, H. (1972a) Light intensity and perception of the vertical: Two experiments with the rod-and-frame test. *Scandinavian Journal of Psychology*, 13, 1-13.

Nyborg, H. (1972b) *Psykologi og Genetik - En introduktion til Psykogenetik. (Psychology and Genetics -An introduction to Psychogenetics)*. Copenhagen: Munksgaard. (135 pp).

Nyborg, H. (1974a) A method for analysing performance in the rod-and-frame test. I. *Scandinavian Journal of Psychology*, 15, 119-123.

Nyborg, H. (1974b) Light intensity in the rod-and-frame test reconsidered. *Scandinavian Journal of Psychology*, 15, 236-237.

Nyborg, H., & Isaksen, B. (1974) A method for analysing performance in the rod-and-frame test. II. Test of the statistical model. *Scandinavian Journal of Psychology*, 15, 124-126.

Nyborg, H. (1975a) Lys og Psykologi. *Lampetten*, 2, 88-102.

Nyborg, H. (1975b) Social-reduktionisme versus Psykogenetikken. *Nordisk Psykologi*, 2, 104-125.

Nyborg, H. (1976) *Sex chromosome abnormalities and cognitive performance. I: A developmental study of cognitive performance in girls with Turner's syndrome*. Aarhus: Psychological Reports Aarhus, 1(2), 1-116. (Excerpt).

Nyborg, H. (1977a) The effect of geometrical structure on perception of the vertical in the rod-and-frame test. *Perceptual and Motor Skills*, 44, 583-589.

Nyborg, H. (1977b) *The rod-and-frame test and the field dependence dimension: Some methodological, conceptual, and developmental considerations*. Copenhagen: Dansk Psykologisk Forlag (186 pp).

Nyborg, H. (1977c) Ramme-stav testen. *Dansk Psykolog Nyt*, 24, 650-653.

Nielsen, J., Nyborg, H. & Dahl, G. (1977a) *Turner's Syndrome: A psychiatric-psychological study of 45 women with Turner's syndrome, compared with their sisters and women with normal karyotype, growth retardation, and primary amenorrhoea*. Aarhus: Acta Jutlandica XLV. Medicine Series 21 (190 pp).

Nielsen, J., Nyborg, H. & Dahl, G. (1977b) *Case material to "Turner's syndrome. A psychiatric-psychological study of 45 women with Turner's syndrome, compared with their sisters and women with normal karyotype, growth retardation, and primary amenorrhoea"*. Aarhus: Acta Jutlandica XLV. Medicine Series 21 (106 pp.)

Nyborg, H. & Nielsen, J. (1977) Sex chromosome abnormalities and cognitive performance. III. Field dependence, frame dependence, and failing development of perceptual stability in girls with Turner's syndrome. *Journal of Psychology*, 96, 205-211.

Baekgaard, W., Nyborg, H., & Nielsen, J. (1978) Neuroticism and extraversion in Turner's syndrome. *Journal of Abnormal Psychology*, 87, 583-586.

Nyborg, H. (1979) Psykogenetik. In K.B. Madsen (Ed.) *Dansk Psykologisk Leksikon*, (2nd edition). Copenhagen: Gyldendal, 340-342.

Nyborg, H. & Nielsen, J. (1979) Aberrazioni cromosomiche e performance cognitiva. IV. Mancato sviluppo de strategie di soluzione del conflitto ottico-vestibolare in relazione alla in ragazze con sindrome Turner. In C. Bianchi & E. Polli (Eds.) *Aspetti Biosociali della Sviluppo: Un approccio Interdisciplinare. Vol. 1: Problemi Medico-Biologici*. Milano: F. Angeli.

Nyborg, H. & Isaksen, B. (1979) Critical analysis of a study on field dependence in young children. *Perceptual and Motor Skills*, 48, 67-70.

Nyborg, H. & Nielsen, J. (1981a) Sex hormone treatment and spatial ability in women with Turner's syndrome. In W. Schmid & J. Nielsen (Eds.) *Human Behavior and Genetics*. Amsterdam: Elsevier/North-Holland Biomedical Press, p. 167-182.

Nyborg, H. & Nielsen, J. (1981b) Spatial ability of men with karyotype 47,XXY, 47,XYY, or controls. In W. Schmid & J. Nielsen (Eds.) *Human Behavior and Genetics*. Amsterdam: Elsevier/North-Holland Biomedical Press, p. 85-106.

Nyborg, H. (1982) Gen-Manipulation: Positive og negative sider. *Tidens Stemme*, 37, 5-8

Nyborg, H., Eysenck, S.B.G., & Kroll, N. (1982) Cross-Cultural comparison of personality in Danish and English children. *Scandinavian Journal of Psychology*, 23, 291-297.

Nyborg, H. (1983) *Spatial ability in men and women: Review and new theory*. Advances in Behavior Research and Therapy. (Monograph Series), 5,(whole No.2), 89-140.

Nyborg, H. (1984) Performance and intelligence in hormonally different groups. In G.J. de Vries, J.P.C. de Bruin, H.B.M. Uylings & M.A. Corner (Eds.) *Sex Differences in the Brain: The Relation between Structure and Function*. Progress in Brain Research, Vol. 61. Amsterdam: Elsevier Biomedical Press, p. 491-508.

Nyborg, H. (1987a) Sex hormones, behavioral development, and reproduction rate: A covariant pattern. *Gynecological Endocrinology, Vol. 1, No. 1.*

Nyborg, H. (1987b) Individual differences or different individuals: That is the question. *The Behavioral and Brain Sciences, 10*, 34-35.

Nyborg, H. (1988a) Mathematics, sex hormones, and brain function. *The Behavioral and Brain Sciences, 11*, 206-207.

Nyborg, H. (1988b) Change at puberty in spatio-perceptual strategy in the rod-and-frame test. *Perceptual and Motor Skills, 67*, 129-130.

Nyborg, H. (1988c) Sex hormones and covariant body, brain, and behavioural development. *Neuroendocrinology Letters, Vol. 10, No. 4*, 217.

Nyborg, H. & Boeggild, C. (1989) Mating behavior - Moves of mind or molecules? *The Behavioral and Brain Sciences, 12*, 29-30.

Nyborg, H. (1990a) Sex hormones, brain development, and spatio-perceptual strategies in women with Turner's syndrome and in school girls. In B. Bender and D. Berch (Eds.) *Sex chromosome abnormalities and behavior: Psychological studies*. Boulder, CO.: Westview Press (For The American Association for the Advancement of Science, Washington, D.C.

Nyborg, H. (1990b) Good, bad, and ugly questions about heredity. *The Behavioral and Brain Sciences, 13,1*, 142-143.

Nyborg, H. (1990c) The nature of nature-nurture interactions. *Behavior Genetics, (abstract) 20,6*, 738-739.

Nyborg, H. (1991) A model for selective sex hormonal depression of creativity at puberty (Summary). *Neuroendocrinology Letters*, 13,3, 187.

Pavlidis, C., Westlind-Danielsson, A.I., Nyborg, H., & McEwen, B. (1991) Neonatal hyperthyroidism disrupts hippocampal LTP and spatial learning. *Experimental Brain Research*, 85, 559-564.

Ellis, L. & Nyborg, H. (1992) Racial/Ethnic variations in male testosterone levels: A possible contributor to group differences in health. *Steroids*, 57(2), 72-75

Nyborg, H. & Sommerlund, B. (1992) Spearman's g, the verbal-performance balance, and brain processes: The Lynn-Vernon debate. *Personality and Individual Differences*, 13(11), 1253-1255.

Nyborg, H. (1994a) The neuropsychology of sex-related differences in brain and specific abilities: Hormones, developmental dynamics, and new paradigm. Chapter 4. In: P.E. Vernon (Ed.), *The Handbook of the Neuropsychology of Individual Differences*. New York: Academic Press, p 59-113.

Nyborg, H. (1994b) *Hormones, sex, and society: The science of physiology*. Westport, CT.: Greenwood Publishing Group

H. Nyborg. (1997a) Testosteron, personlighed og seksualitet. In: *Hjerne & Seksualitet: Aspekter af Teori & Klinik*, edited by C. Graugaard, P. Hertoft, and B. Moehl. Copenhagen:Munksgaard, p. 43-61.

H. Nyborg (1997b) Hans Eysenck: The man, his friends, and this book. In: *The Scientific Study of Human Nature: A Tribute of Hans Eysenck at Eighty*, edited by H. Nyborg, Oxford:Pergamon, p. xiv-xxix.

H. Nyborg (1997c). Molecular Creativity, Genius and Madness. In: *The Scientific Study of Human Nature: Tribute to Hans Eysenck at Eighty*, edited by H. Nyborg, Oxford: Pergamon, p. 422-461.

H. Nyborg (1997d). Psychology as Science. In: *The Scientific Study of Human Nature: Tribute to Hans Eysenck at Eighty*, edited by H. Nyborg, Oxford:Pergamon, p. 563-589.

H. Nyborg (1997e). *Hormoner, Køn, og Samfund: Videnskaben og Fysikologien*, Copenhagen: Dansk Psykologisk Forlag.

H. Nyborg (1998a). Konstitutionslære. *Danmarks Nationalleksikon*.

H. Nyborg (1998b). Molecular man in a molecular world: Applied physiology. *Psyche & Logos*, 18, 457-474.

H. Nyborg. (1998c) Personality, psychology, and the molecular wave: Covariation of genes with hormones, experience, and traits. In: *Volume of Personality Psychology in Europe*, edited by J. Bermudez, B. De Raad, A. M. Perez, A. Sanchez-Elvira, and G. L. van Heck, Tilburg, The Netherlands:Tilburg University Press.

Nyborg, H. (1997d). Testosteron, personlighed og seksualitet. In C.Graugaard, P. Hertoft, & B. Moehl (Eds.), *Hjerne & Seksualitet: Aspekter af Teori & Klinik* (pp. 43-61). Copenhagen: Munksgaard.

Nyborg, H. (1997e). Psychology as science. In H.Nyborg (Ed.), *The Scientific Study of Human Nature: Tribute to Hans J. Eysenck at Eighty* (1. ed., pp. 563-589). Oxford: Pergamon.

Nyborg, H. (Ed.) (1997f). *The Scientific Study of Human Nature: Tribute to Hans J. Eysenck at Eighty*. Oxford: Pergamon.

Nyborg, H. (1997g). Konstitutionslære. *Danmarks Nationalleksikon*. København: Gyldendal.

Nyborg, H. (1997h). Hans Eysenck: The man, his friends, and this book. In H.Nyborg (Ed.), *The Scientific Study of Human Nature: A Tribute of Hans Eysenck at Eighty* (pp. xiv-xxix). Oxford: Pergamon.

Nyborg, H. (1997i). Molecular man in a molecular world: Applied physiology. *Psyche & Logos* 18[2], 457-474.

Netter, P., Toll, C., Rohrmann, S., Hennig, J., & Nyborg, H. (2000). Configural frequency analysis of factors associated with testosterone levels in Vietnam veterans. *Psychologische Beiträge, Band 42*, 504-514.

Nyborg, H. & Jensen, A. R. (2000a). Testosterone Levels as Modifiers of Psychometric g. *Personality and Individual Differences*, 28, 601-607.

Nyborg, H. & Jensen, A. R. (2000b). The Black-White Differences on various psychometric tests: Spearman's hypothesis tested on American Armed Services veterans. *Personality and Individual Differences*, 28, 593-599.

Nyborg, H. & Jensen, A. R. (2001c). Occupation and Income Related to Psychometric g. *Intelligence*, 29, 45-55.

Nyborg, H. Ed. (2003a). *The scientific study of general intelligence: Tribute to Arthur R. Jensen*. UK: Oxford: Pergamon/Elsevier Science.

Nyborg H. (2003b). General introduction: Arthur Jensen - The man, his friends and this book. In H. Nyborg (Ed.), *The scientific study of general intelligence: Tribute to Arthur R. Jensen* (pp. xiii-xxv). Amsterdam: Pergamon/Elsevier Science.

Nyborg H. (2003c). Introduction of part I: The *g* factor. In Nyborg H. (Ed.), *The scientific study of general intelligence: Tribute to Arthur R. Jensen* (pp. 3-4). Amsterdam: Pergamon/Elsevier Science.

Nyborg H. (2003d). Introduction to Part II: The biology of *g*. In Nyborg H. (Ed.), *The scientific study of general intelligence: Tribute to Arthur R. Jensen* (pp. 25-27). Amsterdam: Pergamon.

Nyborg H. (2003e). Introduction to Part III: The demography of *g*. In Nyborg H. (Ed.), *The scientific study of general intelligence: Tribute to Arthur R. Jensen* (pp. 125-126). Amsterdam: Pergamon/Elsevier Science.

Nyborg H. (2003f). Introduction to part IV: The *g* nexus. In Nyborg H. (Ed.), *The scientific study of general intelligence: Tribute to Arthur R. Jensen* (pp. 225-227). Amsterdam: Pergamon/Elsevier Science.

Nyborg H. (2003g). Introduction to part V: Reservations about *g*. In Nyborg H. (Ed.), *The scientific study of general intelligence: Tribute to Arthur R. Jensen* (pp. 369-371). Amsterdam: Pergamon/Elsevier Science.

Nyborg H. (2003h). Sex difference in *g*. In Nyborg H. (Ed.), *The scientific study of general intelligence: Tribute to Arthur R. Jensen* (pp. 187-222). Amsterdam: Pergamon/Elsevier Science.

Nyborg H. (2003i). The sociology of psychometric and biobehavioral sciences: A case study of destructive social reductionism and collective fraud in 20th century academia. In Nyborg H. (Ed.), *The scientific study of general intelligence: Tribute to Arthur R. Jensen* (pp. 441-501). Amsterdam: Pergamon/Elsevier Science.

Reuter, M., Netter, P., Hennig, J., Mohiyeddini, C., & Nyborg H. (2003). Test of Nyborg's General Trait Covariance (GTC) model for hormonally guided development by means of structural equation modelling. *European Journal of Personality*, 17, 221-235.

Nyborg, H. (2004). Multivariate modelling of testosterone-dominance associations. *Behavioral and Brain Sciences*, 27, 155-162.

Nyborg, H. (2005a). Sex-related differences in general intelligence *g*, brain size, and social status. *Person. Individ. Diff.* 39, 497-509.

Nyborg, H (2005b, July 8). Sessionsprøven er farveblind. *Weekendavisen*, pp. 1.

Nyborg, H. (2005c). National and sex difference in scholastic achievement among 276,164 15-year-old students: Hierarchical factor analysis of the 2003 cycle international PISA project. In (Abstract, pp. 24-25 in Proceeding of The International Society for the Study of Individual Differences, Adelaide, South Australia.

Nyborg, H. & Albeck, H. (2005). Drug abuse in mental illness assessed through the association between drug abuse patterns and psychiatric inventories. In (pp. xx). Wyndham Palace Resort, Orlando, Florida.

Nyborg, H., Albeck, H., & Hartmann, P. (2006). Rasch probabilistic modeling of the NLSY97 study, using the Computer Adaptive form of the Armed Services Vocational Aptitude Battery (CAT-ASVAB97), confirms a significant male lead in general ability. In (pp. 46). Proceedings of the Sevent Annual Conference for the International Society for Intelligence Research, Hyatt, San Francisco, CA, USA (abstract).

Hartmann, P., Reuter, M., & Nyborg, H. (2006). The relationship between date of birth and individual differences in personality and intelligence: A large-scale study. *Person. & Individ.Diff*, 40, 1349-1362.

Albeck, H., Larsen, L., & Nyborg, H. (2006). When our vices leave us - Age-related decline in drug abuse and testosterone. (Poster, CPDD, June 2006)

Nyborg, H. (2007a). Intelligence, hormones, sex, brain size and biochemistry: It all needs to have equal causal standing before integration is possible. *Behavioral and Brain Sciences*, 30, 164-165.

Nyborg, H. (2007b). Do recent large-scale cross-national student assessment studies neglect general intelligence *g* for political reasons? *European Journal of Personality*, 2(5), 739-741.

Hartmann, P., Kruuse, N. S., & Nyborg, H. (2007). Testing the cross-racial generality of Spearman's hypothesis in two samples. *Intelligence*, 35(1), 47-57.

Larsen, L., Hartmann, P., & Nyborg, H. (2007). The stability of general intelligence from early adulthood to middle-age. *Intelligence*, 36, 29-34.

Nyborg, H. (2008). The intelligence-religiosity nexus: A representative study of white adolescent Americans. *Intelligence*, 37(1), 81-93. (doi:10.1016/j.intell.2008.08.003).

Lynn, R., Harvey, J., & Nyborg, H. (2008). Average intelligence predicts Atheism rates across 137 nations. *Intelligence*, 37(1), 11-15. (doi:10.1016/j.intell.2008.03.004).

Hartmann, P., Larsen, L., & Nyborg, H. (2009). Personality as predictor of achievement. *Journal of Individual Differences*, 30(2) (doi:10.1027/1614-0001.30.2.xxx).

Nyborg, H. & Larsen, L. (2009). Do schizophrenic and various categories of depressive patients share similar risks for diminished young and old IQ? Proceedings abstract (p. 83) of the Poster presentation at the 10th. Annual Conference of the International Society of Intelligence Research, Madrid December 17-19.
