

TO: Lauritz B. Holm-Nielsen

I do not know whether scientific ignorance and cowardliness or careerist opportunism (or, more likely, both) account for your university's astonishingly wrong-headed and unfair reaction to Prof. Helmuth Nyborg's first-class research. But whatever the motivation, your actions have deservedly made your university the laughing stock of the scientific world.

You must be very proud.

Steven Goldberg  
Emeritus Professor  
City College, City University of New York
